Schools and other WACE providers are invited to send representatives to subject assessment seminars. Attendance is highly recommended for those teaching a subject for the first time.

The half-day seminars in terms one and two will focus on assessment issues, tasks and student work samples to highlight subject/learning area matters related to effective assessment of student achievement and build common understandings that underpin comparability.

The Curriculum Council does not meet the cost of teacher replacement, accommodation or travel for assessment seminars.

Information for each meeting will be sent to schools and can also be accessed on the Curriculum Council website at

[www.curriculum.wa.edu.au/Senior\\_Secondary/Teacher\\_Support/Assessment\\_Seminars/](http://www.curriculum.wa.edu.au/Senior_Secondary/Teacher_Support/Assessment_Seminars/)

Teachers are requested to use the website to register for seminars, although fax facilities (9273 6360) are available. Teachers who register online will receive an email confirming attendance.

Alternative arrangements for teachers in rural and remote centres will include video conferencing.
