Schools will receive a revised WACE manual early in Term 1. The manual provides high school administrators and teachers of senior secondary courses with the policy, procedures, guidelines and requirements for the achievement of the Western Australian Certificate of Education.

This document will replace the WACE Manual 2008, sent to schools in July 2007.

The revised edition provides the most recent information concerning courses, assessment, examinations, certification, moderation and exhibitions and awards. A copy of the manual is available on the Council's website, [www.curriculum.wa.edu.au](http://www.curriculum.wa.edu.au).
