Schools notifying the Curriculum Council that they are offering courses for the first time in 2008 are advised that no hard-copy support material is available.

All support material for courses is to be found on the Curriculum Council website at http://www.curriculum.wa.edu.au/internet/Senior_Secondary/Courses/, or has been distributed previously at PD days. The site is updated regularly as new material becomes available.

However, support material is available for all D/E code subjects, excluding vocational subjects.
