Copies of the Year 12 Information Guide 2008 will be delivered to schools early in Term 2 for distribution to Year 12 students.

The information guide summarises the requirements for enrolling in Curriculum Council subjects and courses which may be used to achieve a Western Australian Certificate of Education (WACE).

It also outlines information about:

- the statement of results
- enrolling in subjects/courses, confirming enrolments and changing enrolments
- examinations, including special examination arrangements and provision for sickness/misadventure
- school assessments
- exhibitions and awards.

Students should be advised to read the information guide carefully. The information and dates provide a useful reference for students during Year 12.

It is recommended that students keep the guide until after they have received their statements of results at the end of the year.
