The Curriculum Council has sent schools copies of the 2008 sample examinations and supporting documents for the following WACE courses:

- Applied Information Technology
- Earth and Environmental Science
- Engineering Studies
- English
- English as an Additional Language/Dialect
- Physical Education Studies

The 2008 sample examination for Media Production and Analysis and supporting documents, including a CD with stimulus texts, will be sent shortly.

These materials were sent only to those schools that had indicated they would offer these courses (at the time of dispatch). Contact Kelly Hourston if your school now requires a copy of any of the sets of documents.
