In 2008, the Council's moderation focus is on TEE and WSA subjects.

The country school visits plan, published in the February WACE Circular, lists the country schools scheduled for a moderation visit in each curriculum area.

Schools will receive written notice of all moderation visits at least three weeks in advance.

Where a country school is delivering only WACE courses in a particular curriculum area there will be no moderation visit during 2008, except in exceptional circumstances.

Support for schools during the initial years of implementation of all WACE courses will be through assessment seminars (Term 1) and consensus meetings (mostly Term 3).
