All applications for special examination arrangements for students with disabilities are due by 27 June, 2008. Students who require changes to standard examination conditions in the TEE/WACE examinations must have an application submitted for them. This includes students with diabetes and students who require access to special equipment or furniture for the examination. It is the responsibility of the school to complete the form and submit it to the Curriculum Council.

Application forms were sent to schools in March.

It is in the best interests of the student if applications are submitted well before the due date. As such, schools are invited to submit their applications as soon as possible. Applications will be processed in order of receipt. Responses to applications received during May should be available to schools and students at the start of Term 3.
