Schools and other WACE providers are invited to send an English teacher representative to the Council's half-day English Grading Support Workshops in weeks six and seven of Term 2.

These meetings, similar to those run at the same time last year, provide opportunities for teachers to develop their understanding of grading practices and evaluation, and make a valuable contribution to the achievement of comparability. Teachers will use student work samples in developing common understandings of grading standards by comparing these with the appropriate stage exemplars and grade descriptors.

Information regarding the workshops is available from the Council website at [http://www.curriculum.wa.edu.au/internet/Senior\\_Secondary/Courses/English/](http://www.curriculum.wa.edu.au/internet/Senior_Secondary/Courses/English/). Look under Assessment and Other Support Materials.
