cathy.moore@curriculum.wa.edu.au

The Business Management and Enterprise course will be included in list A and list B for the 2010 WACE breadth-of-study requirements (i.e. students currently selecting Year 10 courses). Edition 2 of the eCircular indicated placement only in list B.

This new course belongs primarily with the social science/humanities courses as it is about the interaction between people and environments through business strategies and processes.

From 2011, it will be included only in list A.
