Semester 1 course units for Year 12 students need to be uploaded into SIRS by **Friday 25 July, 2008**.

Achievements submitted mid-year to the Curriculum Council will be considered as interim until they are 'signed off' by the school principal in November. This enables schools to update their students' Semester 1 achievements. Semester 2 achievements must be finalised in November.

Schools may wish to provide students' achievements for years 10 and 11 if they are available, but these are not required by the Council at this time.
