The subcommittee of the Mathematics Reference Group has requested that the papers for the three mathematics examinations be consistent in layout.

Therefore the following change in the layout of the Question Answer Booklets for E504 Applicable Mathematics and E506 Calculus will be implemented in 2008 and 2009.

There will be no lines provided after each question. Instead, blank space will be provided.

Nothing else has changed.

The layout for the D502 Discrete Mathematics Question Answer Booklets remains unchanged.
