Schools will be able to download Year 12 statistical reports from the student information records system (SIRS) from January 3 at <https://sirs.curriculum.wa.edu.au>. You will need your school's login details of username and password to do so. These are available from the SIRS coordinator at your school.

The statistics can be accessed via Reports; TEE statistics. Schools may need to refer to Section 7.8 of the WACE Procedures File for instructions on how to run the reports.

Schools will be able to generate histograms and produce a listing of their students' TEE/WACE results. Explanatory notes relating to the school statistics reports will be available on the Curriculum Council website at www.curriculum.wa.edu.au.

For more assistance call Jenny Morup or Jenny Offer on the numbers above.
