The 2009 WACE Procedures File will be in schools before the start of Term 1. Schools are asked to retain their 2008 files and replace the entire contents, cover and spine with the new material.

Files have been customised to suit each school's student database (SIS, MAZE, Excel/MAZE and Excel).

The 2009 WACE Procedures File will soon be available on the Council website at <http://www.curriculum.wa.edu.au/internet/Communications/Publications>. Schools will be able to download individual items. Complete copies of SIS, MAZE, Excel/MAZE, and Excel WACE files will be available for download in early January.
