Mathematics teachers are encouraged to read the item published in this eCircular, titled 'Examination and WACE implications for students enrolled in more than one pair of units for a course'. This item states that students can only sit one examination in a course as the Stage 2 and Stage 3 examinations for a course are held at the same time.

The Mathematics (MAT) and the Mathematics Specialist (MAS) examinations will be held at different times. The Mathematics (MAT) 2A/2B, 2C/2D, 3A/3B and 3C/3D examinations will be held at the same time. The Mathematics Specialist (MAS) 3A/3B and 3C/3D examinations will be held at the same time.
