Almost 100 teachers attended the Music professional development on 20 July. This was the Council's first step in consultation on the revised Music syllabus. The revised Music syllabus will be available on the Curriculum Council website in the last week of August. Teachers will be able to provide feedback online.

Teachers will also be able to provide feedback at the music teachers' networking day on 31 August. Copies of the revised syllabus will be provided on the day. Additional support materials, including a revised Stage 2 draft sample exam and resources for the practical component of the course will be discussed. Teachers will receive details of the networking day through their sector/system contacts.
