Applications have closed for VET students to seek exemption from sitting the WACE course examinations.

Schools are able run reports from SIRS to check on which students have applied for exemption. The pathway to this report is: Reports > Other reports > Report type: External Assessment.

In November, after the VET qualifications achieved by Year 12 students have been uploaded to SIRS, the Curriculum Council will carry out a comparison between those students who have applied for exemption with those who obtained a VET qualification.
