Cover pages for the 2009 TEE/WACE examination papers have been sent to schools along with timetables for the written and practical examinations.

These cover pages should be distributed to teachers of the relevant subject/course to help prepare students for the examinations. They contain details of the structure of each examination, the allocation of marks, and the rules governing the conduct of the examination. Teachers are strongly encouraged to familiarise their students with the front covers.

In addition, individual letters and front covers have been sent directly to the teacher-in-charge of each WACE course being examined.

Enquiries regarding the distribution of these covers can be directed to barrie.chick@curriculum.wa.edu.au.
