Statements of results for the 2008 Year 11 cohort are due in schools on Friday 6 March 2009. However, there may be a delay in the printing of these statements as the Curriculum Council is conducting an audit of VET results for these students.

The Council will randomly audit schools' years 10 and 11 VET data. This is to ensure that results recorded by the Curriculum Council are the same as those recorded by both the school and the partnering registered training organisation.

The audit will be similar to that carried out in November and December last year for Year 12 students.

Statements of results will be printed once the audit has been completed.
