Teachers of the Children, Family and the Community and Food Science and Technology courses are advised that the WACE Manual 2009 incorrectly lists the Preliminary Stage units for both courses as being available in the course contexts.

The P Stage units for these courses are generic. Students do not need to be enrolled in the course contexts as listed for stages 1-3. Instead, the codes CFCPA and CFCPB, and FSTPA and FSTPB should be used.

The web version of the manual has been updated to reflect this change.
