annette.moon@curriculum.wa.edu.au

Assessment, Review and Moderation (ARM) panels and reference groups have responded to feedback and consultation on issues related to syllabus implementation and external assessment.

Minor adjustments have been made to the Geography syllabus. These include minor edits, some information to help use the syllabus and minor adjustments to several content details for clarity. No content has been added or removed from the syllabus.

The version of the syllabus on the Council website reflects these changes.
