ross.fuhrmann@curriculum.wa.edu.au

Unit 2A Applied chemistry

An error in the Applied Chemistry content organiser on page 16 of the syllabus has been amended. It should read:

- the concentration scale mg mL^{-1}

Unit 2B Oxidation and reduction

An error in the Oxidation and reduction content organiser on page 19 of the syllabus has been amended. The following information was repeated:

- electrode product prediction for molten metal halides only

This has been deleted from the syllabus dot point:

- describe and explain the following during the operation of an electrolytic cell:

Teachers with queries should contact curriculum officer Ross Fuhrmann.
