To support teachers and students' preparation for the 2009 Physical Education Studies practical examination, the Curriculum Council has provided schools with copies of the instructional DVDs, produced in 2008, in the sports for which they have examination enrolments.

The Council has received many requests for full sets of the full set of 14 instructional DVDs. Full sets are now available to schools at a cost of \$100. The Council will not sell the DVDs separately.

Schools are requested to use the attached form to order the complete set of DVDs.

Physical Education Studies
