

ATTENTION! TEE CHEMISTRY TEACHERS AND STUDENTS!

Samples of good answers to TEE Chemistry Part 4: Extended Answers

Available 19 September 2001!!

In response to requests from students and teachers, a booklet to help students prepare for the extended answers section of the TEE Chemistry paper has been developed by the Curriculum Council. TEE Chemistry now requires high standards of literacy. Responses must have a logical structure and be expressed clearly and precisely. The booklet includes introductory advice on planning an extended answer, as well as **samples of good TEE answers** written by students in response to the TEE 2000 questions and expert comment on them. **This booklet complements the Chemistry Solutions booklet already on sale.**

The booklet costs **\$5.00** (incl GST) and can be purchased at the Curriculum Council at 27 Walters Drive, Osborne Park or by using the order form below (postage and handling costs apply).
