Professional development sessions 2009***

Course: Food Science and Technology

School:

This workshop will provide direction on how to develop assessment tasks and marking keys. Participants will bring along assessment tasks to share and refine, and produce marking keys to effectively assess student performance. There will also be opportunities to examine test and examination style questions for school-based Stage 1 and Stage 2 examinations.

Participants are requested to bring along 10 copies of one task that they have already used this year to share.

Food Science and Technology session AM <i>Teachers attending PD (name and email address)</i>	Food Science and Technology session PM (repeat session) <i>Teachers attending PD (name and email address)</i>
